Greetings From the Network Directors

It is Career and Technical Education (CTE) Month, and it’s time once again to celebrate the importance of CTE. As we note in this issue of our newsletter, ACTE’s work is critical to CTE efforts across the country. For almost 100 years, ACTE has been representing and serving CTE professionals—their programs and the CTE policies and practices that they work every day to defend, develop, and grow.

We also wish to recognize the contributions to CTE made by the Education Act of 1917. It is 101 years since President Woodrow Wilson signed the 1917 Smith-Hughes National Vocational Education Act, whose work is critical to CTE efforts across the country. For almost 100 years, ACTE has been representing and serving CTE professionals—and our mission to expand the evidence base on the impact of CTE programs on student outcomes.

We welcome your feedback and encourage you to sign up for our mailing list. Follow us on Twitter and LinkedIn. And visit ACTE’s website for CTE facts, products, and more.

Celebrating 29 Days of CTE!

Arlington, VA (2:45–4:15 p.m. ET)

Society for Research on Educational Excellence (SREE) Spring 2020 Conference

March 13, 2020

This CTE Research Network session will present the latest findings on CTE’s benefits for some students. It is Career and Technical Education (CTE) Month, and it’s time once again to celebrate the importance of CTE. Here at the CTE Research Network, we’re excited about the growing number of impact studies and results showing that CTE has benefits for some students.
